By the way, this would never get posted without EOC PIO sign off.

We've been trying for days to get this through the process.

Hey Danny - Not sure if EOC approved or if you consulted with the region.

Just spoke with Melissa and she said the region has a much more accurate and detailed map that it is ready to be posted, and likely would want to replace with what just went up.

Daniel Burgo in the region will be sending it shortly. It has been approved by the Area Commander and JIC.

He will follow up with Jeff Morin and Danny .

**Subject:** Map Viewer of our data

Hey everyone,

We worked with our friends in GIS to get a public-facing version of the map. This pulls from the approved, QA/QC'd public data we've already posted. It's a visual tool to help users look at our data in a meaningful way. We've added it to the top of our newly published data page that has all the data listed in reverse chrono order.
